Q.wiki System Expert

This document confirms that **Marco La Rosa** has successfully completed the training course “Q.wiki multisite Implementation project | Key User Training”..

Q.wiki System Experts are trained specialists in interactive management systems and human-centred process documentation based on Q.wiki.

They are proficient in rights management and all configuration options within Q.wiki.

Using their in-depth knowledge, they translate organisational tasks into Q.wiki, facilitate the management system and further develop it.
